

Data Flow Diagrams and User Stories

Data Flow Diagrams and User Stories

=====

Reference: Data Flow Diagrams and User Stories.docx.pdf

Project: MedSafe

Data Flow (high level)

User -> Frontend (Streamlit) -> Backend (FastAPI) -> Services (RxNav, AI, etc.) -> Response -> User

User Stories

US1: As a [user], I want to [check drug interactions] so that [I can learn about potential risks].

US2: As a [user], I want to [extract drug names from text] so that [I can quickly identify medications].

US3: As a [user], I want to [find alternatives] so that [I can see same-ingredient products].

US4: As a [user], I want to [ask the chatbot] so that [I can understand how to use the app].

[Add data flow diagram description or link to diagram file if created separately.]
